

## Here is the tailored resume:

TRISSAAN ANANDHANAYKI SHANMUGASUNDARAM  
Melbourne, AU | <https://www.linkedin.com/in/trissaan>  
0434549364 | [trissaan@gmail.com](mailto:trissaan@gmail.com)

### DATA ANALYST | CAMPAIGN PERFORMANCE SPECIALIST

#### SUMMARY

Data Analyst with 2+ years of experience in leveraging loyalty data and campaign analytics to drive performance improvements. Skilled in translating complex data into actionable insights and delivering data-driven recommendations to stakeholders. Proficient in Power BI, Tableau, SQL, and statistical analysis. Proven track record of optimizing marketing campaigns and enhancing customer engagement through personalized strategies.

#### SKILLS

- Data Analysis: Power BI, Tableau, SQL, R, Excel
- Campaign Performance Measurement: Loyalty data analysis, A/B testing, attribution modeling
- Customer Segmentation & Personalization: RFM analysis, predictive modeling, targeted campaigns
- Stakeholder Communication: Storytelling, data visualization, commercial acumen

### PROFESSIONAL EXPERIENCE

#### DATA ANALYST (POWER BI | SQL | ETL PIPELINES)

Packcentre | Melbourne, AU

APRIL 2024 - PRESENT

- Designed and maintained Power BI dashboards for the logistics manager, enabling real-time stock monitoring and immediate action on inventory levels.
- Partnered with management, sales, and marketing teams to identify analytical needs, deliver tailored insights, and automate reporting processes, reducing manual effort and refining efficiency.
- Integrated and validated data from sources, including Power BI and Salesforce, improving accuracy and minimizing data loss, resulting in a \$40,000 (3%) reduction in financial losses.
- Enhanced decision-making by tracking key performance indicators (KPIs) and trends, providing data-driven support for strategic planning.

#### PROJECT ENGINEER (AWS | PYTHON AUTOMATION)

Wipro | Tamil Nadu, IN

MAY 2022 - FEBRUARY 2023

- Developed ETL pipelines using AWS Glue and Python libraries, optimizing data ingestion

and transformation workflows.

- Automated asset management tasks with Python scripts, reducing manual effort and cutting staff time spent on the process by 23%.
- Led requirements gathering with end clients to design and implement cloud-based solutions, boosting system efficiency and scalability.

## EDUCATION

### MASTER OF SCIENCE IN DATA SCIENCE

Deakin University

FEBRUARY 2023 – NOVEMBER 2024

- Graduated with a distinction average, demonstrating consistent academic excellence.
- Achieved a High Distinction in Data Wrangling by transforming messy data into actionable insights.
- Engineered a deep learning model for Speech Emotion Recognition, analyzing and classifying emotional tones in speech as part of a group project.

### BACHELOR OF ENGINEERING IN ELECTRONICS AND COMMUNICATION

Dr. Mahalingam College of Engineering and Technology

JUNE 2018 – APRIL 2022

- Graduated with First Class Honors, showcasing a strong academic foundation in data-driven technologies.
- Gained hands-on experience with embedded systems, digital signal processing, and machine learning applications through coursework.
- Conceptualized and built an Autonomous Warehouse Robot, integrating robotics and IoT to optimize warehouse operations and streamline logistics.
